

If I could fly like a butterfly I would be able to do lots of things like reach things from the top shelf. And it would be lots of fun too! I could catch ball that have been thrown too high. And I could also be very helpful I could help by getting kites out of trees or save cats that have climbed trees and can't get down. But if my wings get tired I might have to walk and it might be hard to fly in the wind. But I would still like to walk and run for exercise even though it might be boring if you have wings. And there would be lots of things that I wouldn't be able to do like get something from under the table because my wings wouldn't be able to fit under the table. And even though if I had wings like a butterfly my wings would be really weak. But I would still enjoy having wings to help me do things.

Last spring we went to GG's and found Easter eggs that were chocolate. We went downtown and got eggs and saw lots of tables with chili and lemonade and other stuff.

We went to Red Rock Coulee and it was so windy we had to eat our lunch in the car. Then we went for a very long walk and mom and kookum took pictures of me sitting on very big rocks. At the picnic table there were two spider webs. One had a spider that almost got on my leg and I yelled. Mom and I went shopping in Lethbridge. We went to chapters book store and toys r us. Mom bought me a stuffie, lego and some shopkins.

This spring I pulled my hair looking outside for eggs on the door handle. I fell down sobbing and called Mom and Paulina for help. We stayed home because of the virus we couldn't go to GG's to get eggs. GG and uncle Bill bought a big basket that is purple, pink and yellow with Canada hackysacks, two paw patrol eggs, a bunny puppet and a lot of chocolate eggs and a big chocolate bunny for me and Paulina. They left the basket on the step and when we went to get it they were about to leave so we yelled and they stopped and chatted for five minutes. We didn't go downtown because of the virus. We just stay home or go to Strathcona and police point for walks. At Strathcona we saw a female Moose!

One day I went for a walk and I saw a little bug he looked at me and said hi. I was creeped out a bug just said hi to me that bug was an ant and he called his friends over. I said hi bugs the bugs said what's your name I said my name is Kaiden. What's your name I am bug and Here's my friend rug. I said follow me guys I have a surprise for you the ant said You got us a new ant hill. The ant said you are my best friend The ant Said I have a surprise for you too I said wow a new toothbrush thanks ant. I had a m and m in my pocket I gave it to the ants they were so happy they thanked me over and over because it was the queen's birthday.

By: Kaiden

I was playing in my backyard when I heard a voice. I had been squashing ants, and hadn't noticed the voices until now. The voice was saying "Hey! Stop squashing us!".

I didn't know where the voice was coming from so I drew my plastic sword and said as boldly as I could "Who goes there?" I had been practicing what I call a medieval accent, so the words came out perfectly.

"We do!" said the voice.

It was then that I noticed where the voice was coming from. It was coming from the ants! I decided that it was better to stop squashing ants. I promised I would see them every day at sunset. I kept the promise.

-I wonder why?

-It's more of an olden times version of English (thou, thee, shall, etc. ).

-I mean to say that, if perfection actually existed, than they would have been exact.

The day the insects started to talk to me I was so surprised that I fell over with fright. When I woke up on the floor 1 hour later it felt like I was surrounded by every insect in the world. Then I ran home as fast as I could to go tell my mom and dad what I just heard. When I got home my mom and dad ask me what happened and I told them what I just heard this is what I said:"I heard some insects talking and they said that they would stop stinging us if we built them a home. So that's what we did we built them a castle to live in and they stopped stinging us. *The end !!!*

By: Imogen

The day the insects started talking to me I was really surprised. I know insects can't talk but these ones can. Different kinds of insects started talking to me. The first insect that started talking to me was an ant. She was the queen ant she said that I keep ruining the ant holes they make wich is true I do ruin the ant holes. I told them I won't do it again. Bye said the queen ant. Bye I said. I The next insect that came was a honey bee .Hi said the queen honey bee. Hi I said back how are you I said.I am good she said how about you.I am fine I said. Well I have to go now said the queen honey bee bye she said. Bye I said have a nice day I said. You to she said bye.

Once upon a time I was walking through a meadow. It was spring, my favorite season. It was also a warm day with a few clouds in the sky. There were lots of plants blooming everywhere and there were birds chirping. I also saw some baby deer in the meadow they were eating wild berries from a bush with their mom. There were some baby bunnies too. They were so cute with their little fluffy cotton tails. All of a sudden some nasty mosquitoes started to fly in my path it was so annoying I started to smush them but I could not smush any I got even madder then I started to run at them then I heard a little voice say “stop!” and again the little voice said “please help me!”. I stopped for a minute and said who said that? Then I heard a little noise and it said “me!” I said who? I can’t see you. The noise said “down here!” I looked down. I saw a dragonfly rainbow wings and a blue body. I was shocked then I said to myself no it can’t be or could it be? An insect talking to me! I asked her “are you the one who has been talking to me?” the insect said “yes.” “I am the one who has been talking to you I was so scared that you would smush me. Please don’t do that”. I said I would not hurt her anymore. I also asked her what was her name she said “Sophia”. She asked me my name I said “my name is Saaliha”. We became friends we talked to each other, played with each other, even told stories to each other. One day I went to the meadow to visit Sophia. I went to our favorite tree but I did not find Sophia there so I looked everywhere in the meadow but I did not find her! I was so worried that something bad had happened to her. Then I just remembered that we were having a playdate at my house today! So I ran as fast as I could and I saw Sophia knocking on my house door! I was so relieved to see her. When we went inside I told her everything that happened. We played tag but Sophia always won so we played hide and seek and she also won that. We had lots of fun on the playdate. That is how the insects started talking to me.

# How is your life different from last Spring?

This spring is totally different than last spring due to the outbreak of Covid 19. It's been 45 days I'm inside the house. I have not seen my friends, teachers and instructors. Last year spring, I was sitting with my friends and listening to my teacher in school. But this year I have virtual classroom through the screen.

Last year I went to the mall for easter egg hunt with my friends, we had so much fun. But this year the mall was closed because of Covid 19. We missed the easter egg hunt.

We got a new swing because the playgrounds are closed. I'm spending more time with my family. I play a lot with my sister and we have fun baking together. I baked rainbow cakes and apple crisp, and pancakes. This spring I read a lot, eat a lot, I watch a lot of movies and I play games every day. But still I am bored because I have to do the same stuff every day. I wish coronavirus could go away forever. The best part is my dad is with me this spring whom I missed badly last year.

By: Adi

*I would love to have a baby bunny. I think baby bunnies are cute and fluffy. If I had a baby bunny I would have to feed it with a baby bottle. When it get bigger it would eat Alfalfa pellets. When the baby bunny gets bigger it will stay in a rabbit pen in the backyard. I would visit with it two times a day. In the winter we will put the bunny in the garage where it is warmer. I would give the bunny snuggles every day.*

By: Dakota

Hi my name is Mohammed and I will tell you about what is different then my last spring and This spring. This spring I did not go out very mutch and the other spring I did go out. This spring I have online school and last spring I did go to school. This spring I went out in the garden more the other spring I was playing on electronics. The other spring time went slower and this spring time is faster. This spring I gardened more then last spring.

One day I was at the park. Then one strange voice said “hey over here.” I said “what? Who is there!” Worried I turned around and saw nothing. It is like they disappeared or something like that! Ok maybe it was my imagination then the voice it was there again. I felt like it was under me. The voice said “it was not your imagination it was me down here in the grass you silly thing. I was in shock but you're an ant! AN ANT! At least I think you are an ant” I said. The tiny ant looked at me and said “Of course I am. My name is Antonana” she said “nice to meet you.” Still shocked I said “my name is Sadie.” “Yeah I know. Anyways I need your help” she said. “With what? You’ll see.” So she led me to her colony. Then something weird happened. I turned into an ant before I entered the colony. “What happened?” I said “never mind that just go inside my Colony” She said. “Why” I said “because” she said “we need your help” who is we?” I said. So I went inside the colony and saw there were only about 20 ants there.” What happened” I said Antonia said “they got lost outside trying to find food.” “I think I know why” I said “why?” Because we squish them” “why would you do that?” Antonia said. “Because they’re trying to steal our food and we don’t want that to happen because if you do our food will rot” “but we only take the crumbs Not taking a bite out of it and it doesn’t make any sense” Antonia said. “I know” I said. “I think I could help” I said. “How could you do that?” Antonia said “I could bring you food every day would you like that?” yes I would like that” said Antonia. So I did.

“Wake up Sadie Wake up Wake up Wake up” said Sophia “Antonia?” I said “who is that?” Soph said “never mind.”

By:” Sadie

The day the insects started talking to me. I was weirded out. I asked someone to explain it to me. Know one else could hear them. So I asked the insects what was going on. They said that they were put under a spell for one day. And the first person that they see they can talk to. Everyone thought I was crazy. So I told everyone what was happening. And they asked me who put them under the spell. I don't know I said. They said to go ask. So I went to go ask and they said it was a big dragon ok thanks. So who did it it's not a who its a dragon. A dragon yup a big huge dragon what color I don't know I'll go ask. What color was the dragon the dragon was blue and green thanks bye. So what color was it it was blue and green. Well I can't talk to the insects anymore so let play ya great idea. And they loved each other forever.

By: Elizabeth

The day insects started talking was a buzz. Buzz  
buzz buzz busy busy busy always  
work to be done.

Why do you work so hard I asked. Things to be  
done he said. Always busy, flowers to  
pollinate, honey to collect. Lots of work to do  
around the hive. Busy busy busy no time to  
play, no fun to be had.

And no time to get mad. What happens when you  
get mad I asked? I got a real bad  
Temper and I sting people. Then I die.

I wouldn't like to be a bee I said. Always working  
and no play time. That would suck.

## Mike The Space Cricket

Mike the space cricket lives on stars and asteroids. The only thing that Mike and his friends play is video games. They play from 1-am to 12-pm, the only games they play are Kirby, Call of Duty, War of the West, Minecraft and Fortnite. They watch movies from 1-pm to 5-pm and go swimming from 5-pm to 6-pm. They have pop and candy every once and awhile then Mike and his friends go to bed. But he does not know that he is going to be at war.

The next morning he fell asleep playing War of the West. Then he heard gunshots, he and his friends were having a war! He tried to survive, but he died and he thought he was in heaven. Then his friends took off the headset and he saw his friends and he said he thought they were dead. They said they were playing War of the West and it was just a prank and that he was fine.THE END

## Spring 2019 vs Spring 2020

This spring with the Coronavirus has changed everyone's lives.

I'm missing going to school and playing with my school friends.

I haven't been able to go shopping with my family or go to restaurants with them.

Last year I would go to birthday parties at peoples houses or at special places (WMCA rock climbing).

This year we do drive by honking birthday parades for my friends and family.

During this Coronavirus everyone missed out on sporting and club activities.

One positive thing that I am learning in the spring of 2020 is how to grow our family's own food.
